

Carnegie Corporation of New York

Carnegie Corporation of New York was created by Andrew Carnegie in 1911 to promote “the advancement and diffusion of knowledge and understanding.” Under Carnegie’s will, grants must benefit the people of the United States, although up to 7.4 percent of the funds may be used for the same purpose in countries that are or have been members of the British Commonwealth, with a current emphasis on sub-Saharan Africa. As a grantmaking foundation, the Corporation seeks to carry out Carnegie’s vision of philanthropy, which he said should aim “to do real and permanent good in this world.”

Report on Finances

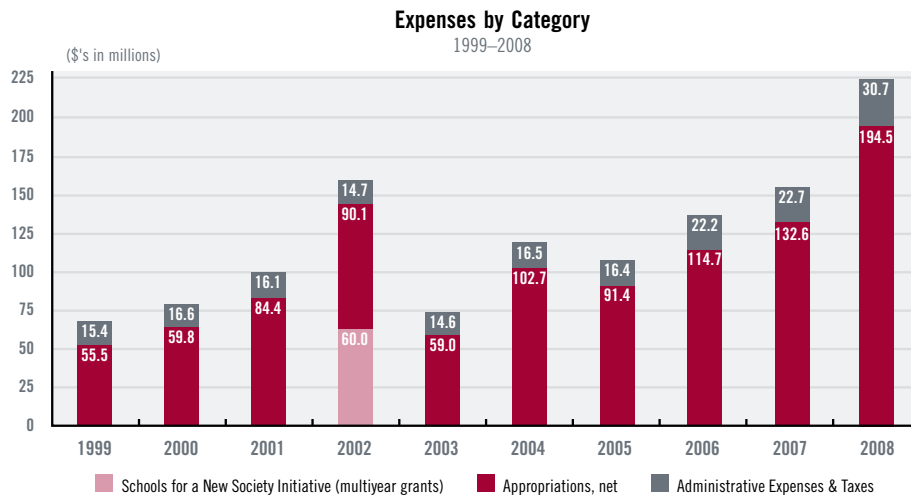

Financial Highlights

Appropriations and Expenses

For the ten years ended September 30, 2008, the Corporation awarded 5,498 grants totaling \$1,044.8 million and incurred expenses of \$139.5 million for direct charitable activities

and administrative expenses, excluding investment expenses, and \$46.4 million for taxes, for a total of \$1,230.7 million.

The graph below illustrates the growth in expenses by category over the ten-year period ended September 30, 2008.

Each year the trustees appropriate funds to be used for grants and for projects administered by the officers. Many of the grants involve multiyear commitments. In the fiscal year ended September 30, 2008, approximately 40 percent of the appropriated funds were paid within the fiscal year. Appropriations, net of refunds and cancellations, totaled \$194.5 million, compared to \$132.6 million in the preceding year. In 2008, Carnegie awarded grants totaling \$60 million to support arts and social service organizations located in New York City funded from the donation of an anonymous donor. In 2007, grants totaling \$30 million were awarded for this purpose.

Program management and direct charitable activities expenses were \$12.6 million in the fiscal year ended September 30, 2008, compared with \$12.2 million in the previous fiscal year. Included in these amounts, are direct

charitable activities of \$3.4 million in 2008 and \$3.5 million in 2007. Direct charitable activities are services provided directly to other exempt organizations, governmental bodies, and the general public. Such services include providing technical assistance to grantees and potential grantees, conducting educational conferences and research, publishing and disseminating educational materials, and serving on boards of other charitable organizations or public commissions.

General administration expenses were \$4.4 million in 2008 and \$3.8 million in 2007.

The schedule below breaks down total expenses, excluding appropriations and taxes, into categories for the year ended September 30, 2008.

	Program management and direct charitable activities	Investment	General administration	Total

* In FY2007, total expenses, excluding appropriations and taxes, were \$24.4 million, which included \$8.4 million of investment expenses.

Taxes

Under the provisions of the Tax Reform Act of 1969, Carnegie Corporation as a private foundation is subject to a federal excise tax of 2 percent on income and realized capital gains. However, under the Tax Reform Act of 1984, the rate is reduced to 1 percent if the foundation maintains its average expense rate of the previous five years and, in addition, spends the tax savings. The Corporation did not meet the requirements for the reduced tax rate in either 2008 or 2007. Excise tax expense for FY2008 was \$5.0 million. Unrelated business income tax expense for FY08 was \$8.7 million. Deferred tax liability represents the potential tax (at 2 percent) on gains as yet unrealized as well as a book to tax timing difference.

Audit by Independent Accountants

The bylaws provide that the Corporation's accounts are to be audited each year by an independent public accountant. Accordingly, the firm of McGladrey & Pullen, LLP audited the Corporation's financial statements as of and for the year ended September 30, 2008. The Corporation's financial statements, together with the independent auditor's report, appear on the following pages.

Independent Auditor's Report

To the Board of Trustees
Carnegie Corporation of New York
New York, New York

We have audited the accompanying balance sheets of Carnegie Corporation of New York (the "Corporation") as of September 30, 2008 and 2007, and the related statements of changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Carnegie Corporation of New York as of September 30, 2008 and 2007, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

September 30, 2008 and 2007

(1) ORGANIZATION:

Carnegie Corporation of New York (the “Corporation”) is a philanthropic grantmaking foundation that was created by Andrew Carnegie in 1911 to promote the advancement and diffusion of knowledge and understanding. The Corporation has a policy of selecting a few areas at a time in which to concentrate its grants. The Corporation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code; however, the Corporation is liable for federal excise taxes (see note 5).

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accompanying financial statements have been prepared on the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The fair value of investments has been determined as indicated in note 3. The carrying amounts of the Corporation’s other financial instruments approximate fair value because of their short maturity.

In September 2006, the Financial Accounting Standards Board (the “FASB”) issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (“SFAS No. 157”). SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurement. SFAS No. 157 also emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and sets out a fair value hierarchy with the highest priority being quoted prices in active markets. Under SFAS No. 157, fair value measurements are disclosed by level within that hierarchy. This statement is effective for fiscal years beginning after November 15, 2007. The Corporation is currently assessing the potential effect of SFAS No. 157 on its financial position, results of operations and cash flows.

Fixed assets are stated at cost. Depreciation is calculated on a straight-line basis over the estimated useful lives of the related assets ranging from five to ten years. Leasehold improvements are amortized over the remaining life of the lease.

Contributions are recognized as revenue in the period the promise to give is received. All revenues in 2008 and 2007 were unrestricted or were restricted and released from restriction during the same period.

Grant appropriations, including multi-year grants, are recorded as an expense and a payable when grants are approved and communicated to the grantees. Grants payable is expected to be paid as follows: approximately \$114 million within one year and the remaining balance within three years.

The FASB has issued FASB Interpretation No. 48 (“FIN 48”), *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109*. FIN 48 clarifies the accounting for uncertainty

Notes to Financial Statements

September 30, 2008 and 2007

in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 prescribes a recognition threshold and measurement standard for the financial statement recognition and measurement of an income tax position taken or expected to be taken on a tax return, including positions that the organization is exempt from income taxes or not subject to income taxes on unrelated business income. In addition, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting on interim periods, disclosure and transition.

The Corporation presently recognizes income tax positions based on management's estimate of whether it is reasonably possible that a liability has been incurred for unrecognized income tax benefits by applying FASB Statement No. 5, *Accounting for Contingencies*.

The Corporation has elected to defer the application of FIN 48 in accordance with FASB Staff Position ("FSP") FIN 48-3. This FSP defers the effective date of FIN 48 for nonpublic enterprises included within its scope to the annual financial statements for fiscal years beginning after December 15, 2008. The Corporation will be required to adopt FIN 48 in its 2010 annual financial statements. The provisions of FIN 48 are to be applied to all tax positions upon initial application of this standard. Only tax positions that meet the more-likely-than-not recognition threshold at the effective date may be recognized or continue to be recognized upon adoption.

The cumulative effect of applying the provisions of FIN 48 will be reported as an adjustment to the opening balance of net assets for the fiscal year of adoption. Management is currently assessing the impact of FIN 48 on its financial position and results of operations and has not determined if the adoption of FIN 48 will have a material effect on its financial statements.

The resources of the Corporation consist of permanently restricted and unrestricted net assets. Permanently restricted net assets represent the original sums received from Andrew Carnegie who, by the terms of the conveying instrument, stipulated that the principal may never be expended; however, the income is expendable. Unrestricted net assets are not subject to donor-imposed restrictions.

In August 2008, the FASB issued FASB Staff Position No. FAS 117-1, *Endowments of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act* ("UPMIFA"), and *Enhanced Disclosures for All Endowment Funds* ("FSP FAS 117-1") to provide guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the UPMIFA. The FSP also requires additional disclosures about an organization's endowment (both donor-restricted and board-designated funds), whether or not the organization is subject to the UPMIFA. The provisions of the FSP are effective for fiscal years ending after December 15, 2008, and the Corporation will be required to adopt FSP FAS 117-1 in its 2009 annual financial statements.

For purposes of the statements of cash flows, cash includes all cash held in bank accounts at September 30, 2008 and 2007.

Notes to Financial Statements

September 30, 2008 and 2007

(3) INVESTMENTS:

Readily marketable investments are reported at fair value on the basis of quoted market prices. Limited partnerships and similar interests are reported at fair value based on financial information received from the fund managers or general partners. The fund managers or general partners determine the fair value of securities using quoted market prices, if available, or using other valuation methods. Investments in limited partnerships and similar interests totaled \$2,183,543,114 at September 30, 2008 and \$2,452,068,128 at September 30, 2007.

Investments are comprised of the following at September 30, 2008 and 2007:

	2008		2007	
	Cost	Fair Value	Cost	Fair Value

Included in the table above is accrued investment income of \$1,698,259 and \$2,230,552 at September 30, 2008 and 2007, respectively.

At September 30, 2008, the Corporation had unfunded capital commitments of approximately \$813.2 million in various limited partnership investments.

During the reporting period, the Corporation received distributions of marketable securities with a total fair value of approximately \$3.8 million from limited partnerships.

In certain cases, the Corporation uses swap contracts to invest in real estate limited partnerships. As of September 30, 2008, the fair value of these swaps, which are included in investments, was approximately \$4.3 million. Swap contracts are subject to off-balance sheet risk mainly due to the credit risk arising from the potential inability of the counterparty of the swap to perform under the terms of the contract. Based on the specific structuring of these swap contracts, the Corporation's exposure to credit risk associated with counterparty nonperformance is limited to the unrealized gain on each contract. To reduce this risk, the Corporation only enters into swaps with major U.S. broker-dealers.

Notes to Financial Statements

September 30, 2008 and 2007

Subsequent to year end, the credit and liquidity crisis in the United States and throughout the global financial system has resulted in substantial volatility in financial markets and the banking system. These and other economic events have a significant adverse impact on investment portfolios. As a result, the Corporation's investments have likely incurred a significant decline in fair value since September 30, 2008.

(4) FIXED ASSETS:

Fixed assets are composed of the following at September 30, 2008 and 2007:

	2008	2007
Leasehold improvements	\$ 4,195,460	\$ 4,195,460
Furniture and equipment	3,909,056	3,638,808
	<u>8,104,516</u>	<u>7,834,268</u>
Less accumulated depreciation and amortization	(7,489,138)	(7,383,356)
Total	<u><u>\$ 615,378</u></u>	<u><u>\$ 450,912</u></u>

(5) TAXES:

The Corporation is liable for federal excise taxes of two percent of its net investment income, as defined, which includes net realized capital gains, for the year. However, this tax is reduced to one percent if certain conditions are met. The Corporation did not meet the requirements for the reduced tax in either 2008 or 2007. Therefore, current taxes are estimated at two percent of net investment income, as defined, for 2008 and 2007.

Deferred taxes represent two percent of unrealized appreciation of investments at September 30, 2008 and 2007, as qualification for the one percent tax is not determinable until the fiscal year in which gains are realized. No deferred taxes are provided for unrelated business income on unrealized appreciation, as such amount cannot be estimated.

During 2008 and 2007, the Corporation had unrelated business income of \$18,371,100 and \$1,173,100, respectively, from certain investment partnership activities. Federal and state taxes of \$5,550,000 in 2008 and \$599,900 in 2007 on this income are calculated using applicable corporate tax rates and are included in the provision for taxes. In 2007, the Corporation also provided for estimated taxes of approximately \$11,000,000 arising on unrealized gains in certain investment partnerships that were considered to be realized excise and unrelated business income for federal and state tax purposes.

The Corporation paid federal excise taxes of \$8,650,000 in 2008 and \$5,067,000 in 2007. The Corporation also paid federal and state unrelated business income taxes of \$19,719,500 in 2008 and \$1,300,000 in 2007.

Notes to Financial Statements

September 30, 2008 and 2007

(6) BENEFIT PLANS:

The Corporation purchases annuities for qualifying employees under the terms of a noncontributory, defined contribution retirement plan with Teachers Insurance and Annuity Association and College Retirement Equities Fund. Retirement plan expense for the years ended September 30, 2008 and 2007 was \$1,264,300 and \$1,167,800, respectively.

In addition, the Corporation has a noncontributory defined benefit annuity plan to supplement the basic plan described above. This plan is also administered by Teachers Insurance and Annuity Association and College Retirement Equities Fund. Contributions to this plan are based on actuarial calculations. No contribution was required in 2008 or 2007. At December 31, 2007, the assets of the plan exceeded the actuarial present value of accumulated plan benefits by approximately \$842,200. Accumulation of benefits under this plan has been frozen effective April 1, 2007.

In addition, the Corporation provides certain medical benefits to its retirees. The cost of providing these benefits was \$332,400 in 2008 and \$259,300 in 2007, on a pay-as-you-go basis.

(7) LEASES:

The Corporation occupies office space at 437 Madison Avenue under a lease agreement expiring December 31, 2013.

The following is a schedule of the future minimum lease payments at September 30, 2008.

Fiscal year ending September 30	Amount
2009	\$ 1,693,000
2010	1,693,000
2011	1,693,000
2012	1,693,000
2013	1,693,000
2014	425,000
Total	\$ 8,890,000

Rental expense for 2008 and 2007, including escalations, was \$1,960,200 and \$1,866,800, respectively.

(8) SUBSEQUENT EVENT:

In January 2009, the Corporation entered into an agreement with Bank of America for the provision of a line of credit of \$50 million, available for grant funding and administrative expenses.

Fiscal 2008: The Year in Review

Board and Committees

Annual elections were held at the December 6, 2007, board meeting. The trustees re-elected Governor Thomas Kean as chairman and Secretary Richard Riley as vice-chairman.

Kofi Annan, former Secretary-General of the United Nations joined the board of trustees as of December 6, 2007.

The board elected members to serve on various committees for calendar year 2008. The Corporation's standing committees were constituted as follows:

Elected to serve on the planning and finance committee were Geoffrey Boisi (through December 4, 2008), Dr. Amy Gutmann, Kurt Schmoke and Janet Robinson, elected chair by committee members.

Elected to serve on the investment management committee were Pedro Aspe, Norman Pearlstine, Janet Robinson, Kurt Schmoke and Geoffrey Boisi (through December 4, 2008), elected chair by committee members.

Elected to serve on the committee on trustees were Bruce Alberts (through December 4, 2008), Richard Brodhead, Dr. Susan Hockfield, Admiral William Owens (through March 6, 2008), Secretary Richard Riley and Governor James Hunt (through December 4, 2008), elected chair by committee members.

Elected to serve on the audit committee were Governor James Hunt (through December 4, 2008), Norman Pearlstine, Thomas Pickering and Pedro Aspe, elected chair by committee members.

Both Governor Thomas Kean, chairman of the board, and Vartan Gregorian, president of

the Corporation, serve *ex officio* on all standing committees. Membership on the ad hoc committee on compensation includes Thomas Kean, chairman of the board, Richard Riley, vice chairman of the board, Geoffrey Boisi, chairman of the investment committee (through December 4, 2008) and Janet Robinson, chair of the planning and finance committee.

The board also elected members to three program committees. Elected to the International Program were Bruce Alberts, Geoffrey Boisi (through December 4, 2008), Fiona Druckenmiller (through June 12, 2008), Ana Palacio, Norman Pearlstine, Thomas Pickering, Richard Riley and Janet Robinson. Elected to the National Program were Pedro Aspe, Richard Brodhead, Amy Gutmann, Susan Hockfield, James Hunt (through December 4, 2008), William Owens (through March 6, 2008) and Kurt Schmoke. Elected to the Special Initiatives program committee was Geoffrey Boisi (through December 4, 2008), Fiona Druckenmiller (through June 12, 2008), Norman Pearlstine, Richard Riley and Janet Robinson.

At the March 6, 2008 board meeting, Admiral William A. Owens retired from the board. The minute of appreciation read, in part: "You embody the qualities that make America great... On the occasion of your final meeting as a trustee of Carnegie Corporation, your colleagues on the board thank you for nearly eight years of service..."

The first four-year term of Ms. Fiona Druckenmiller ended at the conclusion of the June 12, 2008 trustee meeting and Ms. Druckenmiller declined her second term of board service, because of personal demands.

Board Actions

At the board meeting on March 6, 2008, the trustees resolved to accept a gift of \$30 million from an individual who wished to remain anonymous. The trustees authorized the president to appropriate those funds in a manner consistent with the Corporation's mission and the donor's general intent. The grants supported small- and medium-sized arts and cultural institutions and social services providers throughout New York City. It was the 6th year the Corporation received the anonymous donor's gift.

Milestones

During fiscal year 2008, there were a number of staff changes as the Corporation recognized professional growth with promotions and welcomed new people to the foundation. Appreciation was also expressed to departing staff members.

Report on Investments

Annual Report—Fiscal 2008

During the fiscal year ending September 30, 2008, the Corporation's market value declined by 9.9 percent, from \$3.07 billion to \$2.63 billion. In light of the severe market downturn beginning in January 2008, and the ravages of September 2008 when Lehman Brothers was forced into bankruptcy and Fannie Mae and Freddie Mac were put into government receivership, this result is disappointing but not surprising. With the world equity market down 25.6 percent for this twelve-month period, as measured in dollars, a loss of "only" 10 percent appears respectable. The Corporation's diversification helped protect capital, as allocations to high-quality fixed income securities (8.5%), cash (1.5%) and absolute return strategies (25.0%) returned 11.2, 3.5 and -2.1 percent, respectively, for the fiscal year. The Corporation's equity portfolio is largely responsible for the poor results, as global equities, including

emerging markets, were down 24.6 percent for the twelve months ending September 30, 2008. Outperformance of the global equity benchmark by 2.6 percent provided little consolation for this severe erosion of value.

Investments in private assets—private equity and private real estate—helped the portfolio modestly during the fiscal year, returning -2.9 and 2.2 percent, respectively. However, we expect private valuations to decline severely going forward as they are marked-to-market by the general partners, so there is no comfort in these short-term results. The Corporation's performance by asset class is shown above right.

The Corporation's charter directs its trustees to establish an investment policy that is designed to preserve the endowment in perpetuity, maintaining purchasing power net of spending over a long time horizon. While the

Corporation clearly did not meet this goal during the fiscal year, over the past one and two decades it has done quite well in this regard because of strong investment results, low inflation and reasonable levels of spending. During

the past decade, for example, the Corporation grew at a real rate of 3.2 percent, despite spending almost \$1 billion. Over the past twenty years, results are comparable, at 3.0 percent real growth. These results are described in detail in the table below.

Poor results over the past several months have caused the institutional investment community to question whether investments in alternative assets have been beneficial. The Corporation's portfolio speaks loudly and conclusively on this point: alternatives have added enormous value. Witness the returns by asset class for the decade ending September 30, 2008, in which bonds, as measured by the Barclays Capital US Aggregate Index, beat stocks on an annualized basis, at 5.2 versus 3.1 percent for the S&P 500 and 4.3 percent for the MSCI World Equity Index. As portrayed by the data, on the next page, alternative asset classes—absolute return, private equity and private real estate—generated positive double-digit annualized returns. One pleasant surprise is the robust result of emerging markets equity, in which the MSCI Emerging Markets Index returned 14.8 percent per annum, which is the

highest among all the investable world public indices. Yet the Corporation's emerging markets portfolio did even better, at 16.7 percent per annum, thanks to early commitments to frontier markets in Africa, where public equities are highly inefficient and attractively valued.

Post Fiscal Year Results

The ravages of massive global deleveraging, the fragile banking system in the United States and Europe and the subprime housing market collapse caused world markets to decline sharply in October and beyond. The Corporation's marketable portfolio suffered a loss of 10.9 percent in October alone, with equities dropping 19.7 percent. Consequently, the Corporation's assets are substantially impaired relative to the fiscal year end valuations. Despite liquidity pressures on the portfolio due to budgeted spending for grants and capital calls for private

investments, we plan to stay the course to the best of our ability. It is heartening to keep in mind the results of the past two decades decade, in which the Corporation's assets have grown in real terms, providing strong support for our mission, "to promote the advancement and diffusion of knowledge and understanding." Fiscal 2009 is proving to be extremely challenging, a year in which no country, sector or individual is immune from the global financial crisis. Despite the short-term stress on the portfolio due to severe market declines, we plan to stay the course. The Corporation's twenty year track record of success has been generated by diversification, superior manager selection, a value orientation and a long investment horizon, an approach that we expect to continue for the next several decades.
